

Cybersecurity Solutions

Black suits, white hats...
It's all about humans.

Expert Cybersecurity Consultancy Services

Your Trusted Cybersecurity Partner

With extensive expertise and a **proven track record** serving prestigious institutions and globally recognized companies like NATO, The Wellcome Trust, and Kroll, we provide **customized solutions** to safeguard your digital assets in today's dynamic threat landscape.

Penetration Testing

We offer comprehensive pen test services, including vulnerability assessments, and customise solutions for robust cybersecurity.

Vulnerability Management

We assess IT systems for potential weaknesses, analyse risks, implement remediation measures, and provide detailed reports.

Threat Intelligence & Dark Web Search

We help organizations predict cyber threats, including the Dark Web, empower proactive security measures, and enhance cybersecurity.

Cloud Security Assessment

We boost cloud security with a thorough assessment of infrastructure, data protection, identity management, threat detection, and compliance.

Social Engineering	

Our Other Consultancy Services

Phishing Simulation & Awareness	Secure Software Development
Adversary Simulation & Red Team Operations	Load & Stress (DDoS) Test
Incident Response Services	ISO 27001 - Information Security System
Information Security Awareness Program	Malware Analysis & Reverse Engineering

Cybersecurity as a Service (CaaS)

Tailored Defence, Seamless Security

We offer **tailored security**, strategic alignment, risk management, real-time protection, compliance assurance, and access to an expert team holding certifications such as OSCP, CEH, and CISSP. You can scale your security to **fit your needs and budget**.

What we bring to the table:

Customised Security

We start by assessing your current cybersecurity setup, pinpointing vulnerabilities, and crafting a plan to fortify your defences.

Strategic Partnership

We work closely with your leadership team to align cybersecurity with your business goals, setting up policies, governance, and incident response plans.

Risk Management

Our experts identify threats unique to your organisation and develop strategies to minimise risks, ensuring your business stays resilient.

Real-time Protection

We keep a watchful eye on your IT environment, swiftly detecting and responding to threats, all day, every day.

Compliance Assurance

We'll help you navigate the regulatory maze, ensuring your cybersecurity practices align with GDPR, HIPAA, PCI DSS, and more.

Talent on Tap

Forget the hiring headaches – we provide a team of experts at a cost-effective rate. Plus, we help you groom your future cybersecurity leaders.

- Opportunity to practise at your own lab

Essentials Training

- ISO 27001 Information Security Management System Implementation
- Information Security Awareness for EndUsers
- Information Security Awareness for Managers
- Social Engineering: Attack and Defence Methods

Advanced Training

- Mobile App Pentest
- Penetration Testing and Ethical Hacking
- Secure Software Development
- Security Operation Center (SOC)
- Web Applications Security

Expert Training

- Active Defence and Deception Technologies
- Advanced Network Security Monitoring
- Cloud Security
- Exploit Development & Reverse Engineering
- Mobile Malware Analysis
- Network Forensics
- Threat Hunting

Personalised Cybersecurity Engineering **Training System**

Learn at Your Own Pace

We've guided countless students from diverse backgrounds to success in cybersecurity careers. Customise your learning journey with our **modular training program tailored to your pace and preferences**. Craft the perfect training package to enhance your cybersecurity skills.

Self-paced Learning

Experience the flexibility and freedom to progress at your preferred pace with our modular structure.

Content Engine

Specialise in cybersecurity by creating a tailored training package that suits your needs.

Career Coaching

Throughout your educational journey, receive guidance from experienced mentors for your future cybersecurity career.

Create Your Own Lab

Acquire practical skills by engaging with real-world scenarios within a lab environment tailored specifically for you.

Certification Exam Prep

Prepare for the most in-demand certifications in the cybersecurity field with a regularly updated question bank.

Mock Interviews with Experts

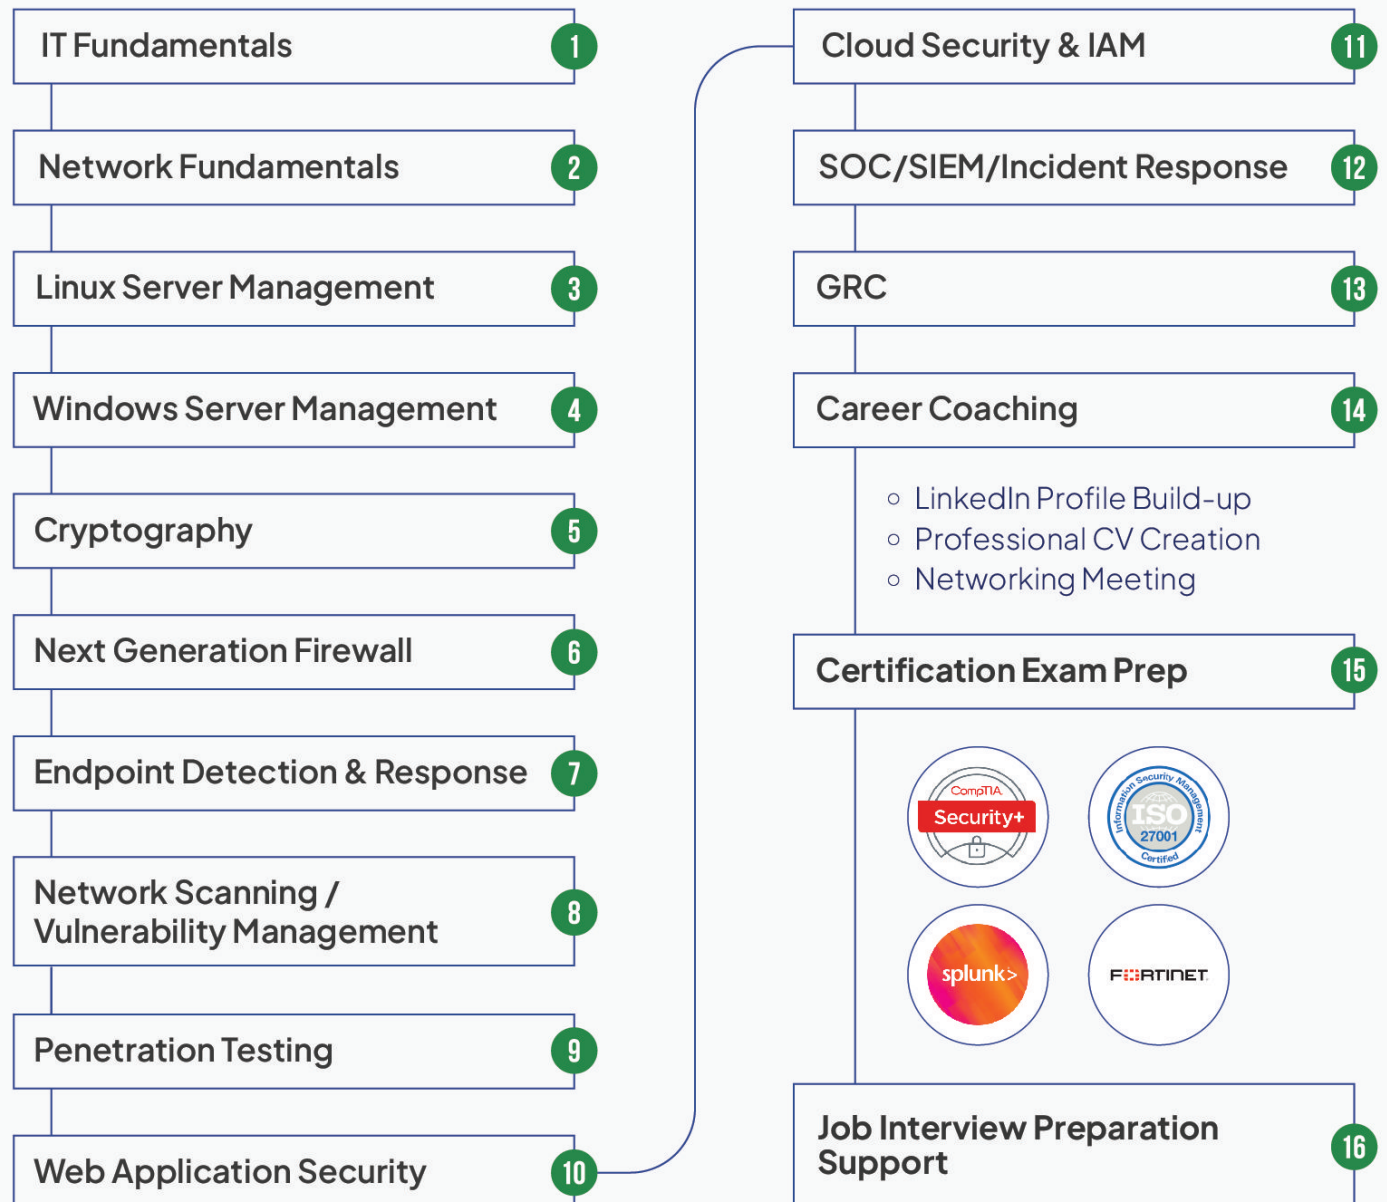

Prepare for your upcoming job interviews with mock interviews conducted by our industry-active experts.

An official Delivery Partner of **CompTIA**.
