Date: 2011–2016
Impact: Around 15.2 million UK customer records.

EasyJet
Date: October 2019 – March 2020
Impact: 9 million customers & 2200 credit cards details.

The National Health Service (NHS)
Date: July 2011 – July 2012
Impact: Over 1.8 million health and employee records.

Virgin Media
Date: March 2020
Impact: 900,000 customers.

Do you know what the
top 5 data breaches in the UK are?

In the interconnected world, cybersecurity is crucial, highlighted by recent breaches at companies like Dixons Carphone, Equifax, EasyJet, the NHS, and Virgin Media. These incidents compromise millions of personal and financial records, underscoring the need for robust security measures. With evolving attack styles, including AI integration, the cyber landscape is increasingly perilous.

- At Hacker Academy, we offer personalised consulting and advanced training to help you navigate the digital landscape securely.

CREST   CompTIA Authorized Partner   UK CYBER SECURITY COUNCIL

Hacker Academy:
Your Trusted Cybersecurity Partner

At Hacker Academy, we're more than just a cybersecurity company; we're your partners in navigating the complexities of digital security. Whether you're a corporation seeking robust defence strategies or an individual embarking on a career in cybersecurity, we've got you covered.

UK CYBER SECURITY COUNCIL

Member of the
UK Cyber Security Council

CREST®

CREST Penetration Testing
Provider for the EMEA region

CompTIA. Authorized Partner

Official Delivery
Partner of CompTIA

Tailored Solutions
Tailored solutions that maximise your business's security posture and resilience according to your business needs.

Expert Guidance
Experienced professionals, actively engaged in the field and holding certifications such as OSCP, CEH, and CISSP.

Comprehensive Training
CyberLabs equipped with NGFW, EDR, and SOC tools, offering hands-on training opportunities.

Proven Track Record
Many prestigious clients, such as the London Metropolitan Police, the Wellcome Trust, Fluid and Kroll.

Hacker Academy Consultancy Services

Did you know? Small businesses account for 43% of annual cyberattacks, with **46% of those targeting businesses with 1,000 or fewer employees**. Size doesn't matter in cybersecurity; every business faces digital threats. We provide tailored solutions to address your unique security challenges and provide proactive defence against cyber threats.

Cybersecurity Consultancy Phases:

1	**2**	**3**	**4**	**5**
Assessment	Planning	Implementation	Monitoring	Improvement

Consultancy Services

Penetration Tests	Phishing Simulation & Awareness	Incident Response Services
Vulnerability Management	Adversary Simulation & Red Team Operations	ISO 27001 - Information Security System
Threat Intelligence & Dark Web Search	Cloud Security Assessment	Information Security Awareness Program
Secure Software Development	Load & Stress (DDoS) Test	Malware Analysis & Reserve Engineering

CREST   CompTIA Authorized Partner   UK CYBER SECURITY COUNCIL

Essentials Training:

• ISO 27001 Information Security Management System Implementation
• Information Security Awareness for EndUsers
• Information Security Awareness for Managers
• Social Engineering: Attack and Defence Methods

Advanced Training:

• Mobile App Pentest
• Penetration Testing and Ethical Hacking
• Secure Software Development
• Security Operation Center (SOC)
• Web Applications Security

Expert Training:

• Active Defence and Deception Technologies
• Advanced Network Security Monitoring
• Cloud Security
• Exploit Development & Reverse Engineering
• Mobile Malware Analysis
• Network Forensics
• Threat Hunting

Hacker Academy

Upskilling Training

Did you know? According to IBM's Cyber Security Intelligence Index Report, **a whopping 95% of cyber security breaches are caused by human error**. Don't let your team be the weak link in your organisation's security. We offer cybersecurity training services to empower your employees with the knowledge and skills they need to protect your business from potential threats.

Self-paced and Personalised Cybersecurity Engineering Training System

Our Training Offerings

We offer learning at your own pace and according to your needs. With our modular training program, you can select the topics you want to learn and chart your own learning path. To enhance your cybersecurity skills, create the training package that best suits you.

Self-paced Learning
Choose the topics you want and progress at your own pace with our modular structure.

Personalised Experience
Specialise in cybersecurity by creating tailored training packages that suit your needs.

Mentor Support
Get guidance from experienced mentors throughout your training journey.

Hands-on Experience on Real-world Scenarios
Gain practical skills by studying on real-world scenarios in a lab environment tailored specifically for you.
